A bibliography lists all the sources that have been used in preparing your assignment. (Those referred to in your footnotes plus any others.)

Divide the bibliography into the following sections:

A Articles/Books/Reports (not law reports as they should be listed in the section: Case Law)
B Case Law
C Legislation
D Treaties
E Other

Sources should be listed in alphabetical order under each heading according to the surname of the first listed author.

Where more than one work by an author is listed, the works should be listed chronological order.
